BONDS ISSUE

Pay Wards Would More Than Care for Interest on Grady Bonds and Taxes Would Not Be Increased.

At the meeting of Atlanta citizens held in the council chamber yesterday afternoon in the interest of the Grady hospital bond issue, presided over by Bishop K. Nelson, the following pertinent and interesting points were brought out:

First, that the bond issue will not mean one cent of extra taxes to the people of Atlanta, because the pay ward of the new institution will absolutely take care of the interest on the bonds and provide a sinking fund for their retirement.

Second, that the new Grady hospital will in no way compete with the private hospitals of Atlanta, as the charges in the pay ward will be the same; and that of increasing Atlanta's hospital facilities for poor patients will be to bring more patients to the hospital.

Third, that the Atlanta Medical college never has and never will exercise any control whatever over Grady hospital, and the only connection between the two is that council has given the college permission to go into the hospital only for bedside teaching for its students.

Fourth, that the Atlanta Medical college is a public institution, of which none of the Atlanta physicians who teach there draw a single penny of income, and to which they give their services without any charge whatever.

Fifth, that the Atlanta citizens who are interested themselves in the bond movement are doing so purely from humanitarian motives, and have no advantage whatever to gain through Atlanta's building a modern and adequate hospital.

Sixth, that ample provision will be made in the new hospital, when built, for the negroes; in fact, that the present capacity of the hospital will be doubled and more.

Bishop Nelson called the meeting to order, and called on Dr. W. S. Sumner, who, in the course of his statement about the needs of Grady hospital, said that the number of patients in 1912 increased about 800 over 1911, and that this year's increase will be about 1,000 over 1912.

It was held to be a serious question, he said, "as to how we are going to take care of them."

Dr. W. S. Sumner made a clear statement showing the absurdity of the report, which has been circulated as to the Atlanta Medical college exercising control over Grady hospital.

Dr. Westmoreland showed clearly that the college is a public institution, of which none of the faculty receive one penny of income, and he asserted that the college is directly responsible for \$150,000 being spent each year in Atlanta for the care of the poor and others who have come because of it.

Mayor Woodward said he was enthusiastic for the bond issue, and he wanted to impress the committee with the fact that there must be some work done.

You should show the tax payers of Atlanta that the bond issue is not going to put one dollar of additional taxes on the property owners of Atlanta. The pay department of the new hospital will absolutely take care of the bond issue, principal and interest.

Mayor Woodward said it should also be clearly shown that the new hospital will result in doubling the present capacity of the charity ward.

Colonel W. L. Peet made a brief address strengthening the strengthening of organization. Captain J. W. English pointed out that it is the duty of Atlanta to build an adequate hospital to take care of all necessary cases.

Even though it were to mean increased taxes, Captain English said, "there is no tax which I would pay more cheerfully than that for the enlargement of Grady hospital."

Major Woodward, in response to a question from Bishop Nelson, pointed out that under the tentative plans for the new hospital, the bond issue was authorized, provision was made for doubling the present capacity of the hospital, or for taking care of negro patients.

No Personal Benefit. Bishop Nelson said it should be made clear that every man who is devoting his time to the work of getting this bond issue for Grady is doing it through humanitarian motives. There is not one of them, he said, who expects to get any personal benefit from it.

The Chairman of the executive committee, outlined briefly the work that has already been done and stated that the prospectus which has been prepared to answer all arguments about the issue would be out in the next part of this week, and distributed to every voter in the city. He also outlined the plans that have been made for the organization of ward committees.

A. House of the Atlanta Steel Works and president of the Builders' Exchange, said that he would have a letter sent out to the members of that organization asking them to work for the bond issue. He was confident he said, that the exchange would warmly endorse the issue.

bonds, and that practically every member of the board of the hospital would take care of the interest on the bonds, and at the same time, at the event of the passage of the bonds, Atlanta materials and Atlanta labor would be used.

There have just been received at Grady bond headquarters, in the Atlanta Chamber of Commerce building, 20,000 Grady hospital bond buttons. Each button will receive a picture of Atlanta and worn in coat lapels.

UNIT SYSTEM WILL BE TRIED BY THE FOURTH NATIONAL

The Fourth National Bank will today inaugurate the "unit system" of paying and receiving money by depositors. Each dollar's worth of money will be received in the form of a check, cash, or check and make payrolls for the customers alphabetically.

Under the old plan a customer who wished to cash a check and also to make a deposit had to go to two windows for the two transactions. Under the new system he will dispose of both transactions at one window, thereby saving the time the customer has had to stand in line heretofore.

The "unit system" has been in use in the women's department and the savings department of the bank since they were established.

"DER ROSENKAVALIER" STIRS MUSIC CRITICS

Some Say It is Divinely Beautiful, Some Say Divinely Otherwise.

Perhaps none of the operas which are to be presented next week by the Metropolitan Opera company has attracted so much attention as "Der Rosenkavalier." It has been called a musical rendition of cubism and futurism. It has been declared that some of the waltzes could not be sent through the mails. It has been hailed as the forerunner of a new school of music. Some people say it is divinely beautiful and some say it is divinely otherwise.

Besides possessing a mezzo-soprano voice which seems equal to any demand, Mrs. Hervey is considered one of the most beautiful women on the operatic stage. Her performance is a masterpiece of art.
